4504 / 6504 PANEL MOUNT

Our 4504 and 6504 are Process grade Front Flange Panel Mount Gauges. These gauges are designed for precision and safety with an solid front, Blow-out back Safety Case. There is a solid wall between the pressure sensing unit and the window, which provides greater safety for personnel monitoring the gauges.

The Hinged front allows users to remove the front cover with a simple thumb screw for easy panel installation and re-calibration when necessary. 0.5 % Accuracy and Stainless Steel wetted parts make this gauge an excellent choice for industrial and process applications where accuracy and durability are required.

These gauges are supplied as dry only and available in 4 ½" or 6"Dial Size.

STANDARD SPECIFICATIONS:

DIAL: 4 ½" or 6"
CONNECTION: ¼" or ½"NPT
CASE: Front Flanged
